

Masks Recommended

Church Council and Pastor Karyn are recommending wearing masks while gathered in the Sanctuary for church on Sundays based on guidance from the CDC.

The CDC reports that Philadelphia, Bucks, Delaware and Montgomery counties are experiencing high community transmission of coronavirus.

The CDC recommends that all people, vaccinated or not, wear masks and maintain physical distancing in both indoor and outdoor public or multi-household gatherings.

Unvaccinated persons, including all children under 12 who cannot yet be vaccinated, are most at risk. There is [evidence](#) that persons who are fully vaccinated may become infected, and transmit the virus before they show any symptoms.

Due to restrictions for our Preschool, **you MUST wear a mask in any common area** (entrances, hallways, bathrooms, etc.).

We want to keep you all safe and healthy! We urge you to protect yourself and others by getting vaccinated!
